

## WORKING PLATFORM CERTIFICATE

<b>Project Name</b>	
<b>Section/Activity</b>	

### Part 1- WORKING PLATFORM DESIGN

<b>Equipment to be used on site:</b>	
<b>Maximum plant loading:</b>	

**Note:** Reference material developed by the Federation of Piling Specialists to assist with the calculation of bearing pressures is available on [www.pilingfederation.org.au](http://www.pilingfederation.org.au) - follow the prompts to "Safe Working Platforms"

### PART 2 – WORKING PLATFORM INSTALLATION

The Working Platform on the work site detailed above has been designed by an **independent geotechnical engineer** and installed to safely support the equipment detailed on this certificate. The working platform will be maintained and repaired, and reinstated to the as installed condition after any excavation or damage, throughout the period that the equipment is on the site.

<b>Signature</b>		<b>Name</b>
